Project Details:

BYJU's - Digital Finance Technical Team -

- ➢ *Customer Satisfaction Rating Module*:
    1. Module to get the feedbacks from the customer soon after the sales discussion completion from our agent.
    2. Worked on **AWS serverless Architecture** to roll out SMS and receive feedbacks submissions from customer. Came up with **RDBMS (PostgreSQL)** database structure and **Mongo DB** to store the data. Used **Node.Js** for backend and **React.Js** for Front-End to show grid and graphical representation of data.
    3. Implemented the report export option in CSV format using npm packages.
    4. Worked on Positing Activities in LS CRM.

- ➢ *HR Competency Module*:
    1. Prepared a module for HR to give performance assessment ratings for BYJU's Employees.
    2. Worked on creating **RDBMS (PostgreSQL)** database architecture. Developed Manager Level Performance Assessment Module and Agent Performance Assessment View Module in Front-End using **React.Js**. And **Node.Js** for the backend.

- ➢ *Loan Module and Payment Module*:
    1. Worked on all the Loan Vendors (6) split view UI scree using **React.Js**. ICICI UPI payment integration using **AWS serverless architecture**. Built some SSR web & mobile app pages for the security team using **Next.Js**.

- ➢ *Digital Finance Achieve Module*:
    1. Developed couple of new Achieve Applications for FinOps Team **(React.Js and Node.Js)**. Moved their Employee management from excel to website.
    2. Module used by sales team to track incentives based on successful course enrollments for BYJU's. Moved all the excel sheets manual calculations to an automated process using CRON jobs (**Node.JS**). Used **Mongo DB** database architecture to store the incentive data, developed graphical and grid representation using **React.Js** and **Node.Js** on server side.

- ➢ Extensively used GIT for version control and to regularly push the code to Github. Also reviewed the codes and PR's. Ensuring proper conversion of business requirements (BRD) into technical requirements (TRD). Making sure the sprint process are performed and deliverables are met.

- ➢ Worked on creating many SSR web and mobile pages using **Next.Js.**
    - Contact - Akash Manoj

Achievement / Certification:

- Received **CODE NINJA of the Quarter (2021)** for Building **Automated Incentive Module** and eradicating their manual Excel Sheet Calculations for Supply Chain Department.
